

Full Service Facility — Port Fourchon, Louisiana

191 A.J. Estay Road, Golden Meadow, Louisiana 70357
+1 985.396.2610

GENERAL DESCRIPTION

The TETRA facility near Port Fourchon, Louisiana, is a 250,000 square-foot, full-service facility located at 191 A.J. Estay Road. As one of the largest service facilities on the Gulf Coast, it supports deep-water operations in the Gulf of Mexico with the full line of TETRA clear brine, zinc-free, and formate-free fluids, as well as chemical additives, fluid blending, fluid filtration, fluid reclamation, and fluid and chemical storage. It also provides diesel fuel, lube oils, drill water, potable water, complete crane services, capability to load vessels simultaneously, and 24/7 quality assurance from on-site technicians.
